Indigenous Language Wordlists Brisbane Animal Words

There are several neighbouring languages in the Greater Brisbane area; these were closely related with many shared words. As Aboriginal languages are oral languages that have been written only since European settlement there may be variations in spelling and/or pronunciation across the region due to dialectical differences.

Yugara is the name of the language spoken in the Brisbane area west to Ipswich and the Lockyer Valley.

Turubul is the name of the language spoken in the Brisbane area north to the Sunshine Coast.

Yugambah is the name of the language spoken between the Logan and Tweed Rivers and west to Beaudesert and Rathdowney.

Yugarabul is the name of the language spoken in Brisbane area south-west towards Ipswich and Boonah.

Some of these words may still be used in South-East Queensland communities.

Note: The following list should be seen as a guide - check with local language speakers as to the preferred local pronunciation.
