

## COVID-19 update

The health and safety of staff and clients is our top priority

Tuesday 25 January 2022

[Staff updates page](#) | [Staff email archive](#) | [Health and Wellbeing Team initiatives](#)

### When should you contact People and Culture?

As COVID-19 continues to circulate in the community, it is important to email your People Leader and [People and Culture](#) as soon as possible:

- if you have had a PCR test
- if you have received a positive result on a RAT or PCR test
- with the date that any period of quarantine (if you've been a diagnosed COVID case) or isolation (if you're a close contact) finishes.

You should also let your People Leader know if you start to experience any symptoms.

### N95 masks available

All staff who work front of house or who come into contact with the public through the course of their work can contact the [Facilities Operations](#) team for N95 masks. These masks are for staff use only, not for the public.

It is important that N95 masks are correctly fitted to your face to ensure their effectiveness. [More information](#) is available from Queensland Health about how to do a fit check.

Take care everyone,  
Vicki
