No. 53/18) States Writ for election of Member of Legislative Council for Stanley Boroughs following death of Richard Jones now received. Discusses legislative procedures & reasons for taking no further action but glad of opinion of Governor General & Executive Council. [No 53/9] & Notes in Margin Crown Law Officers should advise re further proceedings Yes Transmitted Crown Law Officers accordingly. BC. To be returned Noted [Refs: 53/1579; 53/2496]  Memo 11.063 At top: Proceedings of Executive Council 1 <sup>st</sup> march 1853 re non-return of Writ of Election for Stanley Boroughs. Extract from Minute No 53/11. As 53 <sup>rd</sup> Section of Electoral Act has no limitation of time as to power of Governor to declare validity of election, Council of opinion (as advised by Attorney General report enclosed on Speaker's letter) that proper time for Council to exercise power vested in them will be when Writ is returned. Recommend Speaker be informed accordingly. Further advise Returning Officer be reminded by 76 <sup>th</sup> Section of Electoral Act he is liable to penalty not less than £20 & not exceeding £50 for neglect to return Writ in time. 	53/01579				1853 02 19~  1853 02 19~ 1853 02 21~	Note Cannot be any precedent for this case as is first under present Act. Nothing similar under former Electoral Act. Practice was to extend time for receipt of Writ before period first named has elapsed, or declare Return valid after receipt of Writ despite delay. Numerous cases of either class may be cited. Nearest approach to present case is that cited by CS, namely, return of Benjamin Boyd. But, in that case, Writ lost & matter referred to Legislative Council as Vacancy under 18 <sup>th</sup> clause of Imperial Act. [5 & 6 Vict. Cap: 76 (See V & P for 1844 p 271 Vol 1)] Council referred question to Select Committee (see same volume p 284) & Notes in Margin Before this is brought before Executive Council Crown Law Office should be requested to advise proper course - immediate Transmitted to Crown Law Office accordingly. 				E O Moriarty Brisbane	1852 12 13	Enclosure At top: Enclosure of Deputy Surveyor General's Letter of 17 January 1853 No 53/37 to Colonial Secretary Transmitting plan of proposed site for Township at Gap Creek. Discusses problems with Gap Creek site, including uneven ground surface, lack of permanent water & steep inclines. More favourable site at junction of North branch of Glengallan Creek & Gap Creek with Millar's Brook - excellent water, level ground, rich agricultural land & convenient distance from Warwick (16 miles). Best line of road from Warwick to Ipswich via Cunningham's Gap is up Millar's Brook making township at Gap Creek out of line of traffic. Dismisses fact of Inn being built there indicates convenience for public. Suggests many licenses granted for Inns not for public convenience, but where public least likely to interfere with own squatting stations		145-147
	52/02152	1852 03 06	Hon CS	T L Mitchell Surveyor General's Office Sydney	1852 03 02	Letter re Town at Gap Creek in Darling Downs & further communication from Mr Leslie urging necessity for Town there as well as at Bush Inn on Yarrell or Warrell Creek, on road from Warwick to Ipswich. This road not considered high road, but may still be expedient to lay towns out as indicated. Also expedient to lay out at more likely high road, namely, from Drayton to Ipswich, recommended spots being at Gatton on Lockyer's Creek & at Owen's Inn on Western Creek. Towns also required on road from Ipswich towards Gayndah, at Smith's Inn about 23 miles from Ipswich, at Cress Brook 3 miles above Court House, & at Emu Creek crossing. Further on Road from Drayton to Callandoon, Town may be necessary at Graham's Inn, at Camel Creek crossing. [No. 52/140] [Ref: CS 51/650 & own 51/519]	A2.26	148-150

				Acting Deputy Surveyor General Surveyor General's Office Sydney	1853 03 22~ 1853 03 23~	reputed County of Stanley [Margin Note: Messrs Sheridan & White] Through Chief Commission Crown Lands, ascertained that lands applied for do not form any part of Licensed Run & may therefore be brought forward for lease by Auction. Lands in County of Stanley Proper have been brought forward to be leased by Auction, but as lands for which Duckett White & James Sheridan have applied are situated in what is known as reputed County of Stanley only & are exterior to County of Stanley proper, request rule or precedent with authority of His Excellency. Captain Wickham, on former occasion, withdrew some leases from Auction & Mr Commissioner Simpson has heretofore considered lands beyond County of Stanley proper as unsettled & the lands are mostly leased by Colonel Barney under regulations of 11 <sup>th</sup> February. [No. 53/143] & Notes in Margin MF I am not aware of any objection to leasing of unclaimed lands in reputed County of Stanley in manner proposed & infer there must have been special reasons for preventing this course in cases alluded to on 3 <sup>rd</sup> page. May not be out of place to remark that there is considerable danger of repeating confusion already taken place by official use of designation "The County of Stanley <u>Proper</u> " as opposed to some other Boundary. Strictly speaking there is no legal County of Stanley because so far as I am aware no such County has ever been formally created. There was a <u>proposed</u> County of Stanley which a portion of the public confounded with <u>reputed</u> County which by Her M Order in Council of March 1827 is declared to come within the Settled Class of Lands. For purposes of present enquiry Government can only recognise reputed County of Stanley & any attempt to preserve distinction sought in this letter will only tend to perpetuate mistake.

	53/05461	1853 06 24	Hon CS	H Stuart Russell Sydney	1853 06 23	Letter urging purchase of small vessel for use of Harbor Master & Pilot at Moreton Bay. Quotes extract from letter from Harbour Master.  Necessity exists for having Pilot vessel of about 30 tons to give Pilot greater facility in getting back to his station after having brought a ship to anchorage in case another might require his aid. Frequently not able to return in open boat for day or two. For instance, the "Parsee" of 1000 tons was compelled to anchor in a blind channel through this circumstance. Few persons aware that from time he boards a ship he has to go 26 miles to her anchorage off the River & when he has to report at Custom House, before he gets back to the Station, he has traversed one hundred miles. Only fancy a ship bound to Sydney having to send ten miles beyond Wollongong to report her at the Custom House. Ours is 50 miles from entrance to this Bay & 23 from usual anchorage. When Cleveland is opened, distance to anchorage will be 34 miles & to Quarantine Ground nearly 50 miles. There is no such Port that I have visited & as importance of Port increases so must its wants. The Pilot has had so many hairbreadth escapes in crossing the Bay he is going to resign & frequently cannot persuade crew to attempt crossing. I pointed this out to Port-master when here as also the means of overhauling the Moarings & Buoys in Ship Channel that no open boat could lift. Coasters here charge enormously for any kind of service & expense of small craft would soon be saved. PS. Wickham is favourable to there being a small craft here. He	A2.26	377-380 & 386-387

						mooted it four years ago. June 9 <sup>th</sup> 1853. I beg to add a few remarks which have arisen from personal observation during my residence at Moreton Bay. Firstly, craft of description above might be means of affording protection to Harbour & river itself, which late visit of Norfolk Island escaped convicts fully prove to be subject fit for Government consideration. Secondly, Buoys, Moorings & Beacons would be properly attended to, & I must urge Harbour Masters remark as to "Hairbreadth Escapes" both of Pilot & crews in making such attempts to do their duty. Thirdly, in cases of shipwreck, which not infrequently occur both Northward & Southward of Moreton Bay, immediate assistance might be rendered which there is no possibility of doing at present. Also submit that beyond cost of suitable craft, expenses would be little beyond wages provided for crews as at present & benefits resulting would be most important. & Notes in margin Refer for report of Portmaster requesting Estimate of final cost & annual expense of a vessel, having in mind suggestion that portion of present boat's crews may be made available for this purpose. Remarks on necessity of having decked vessel as Pilot & Buoy boat at Moreton Bay to overhaul Buoys & mooring chains as well as to render Pilotage of Port of more advantage to Strangers by cruising outside Moreton Island when vessels expected. Doubts 30 tons sufficient. Estimate to be furnished. Discusses Mr Gray's reference to traversing 100 miles before returning to his Station. Mentions enclosed Memorandum to Harbour Master stating Pilot should confine himself to duties of Office & leave Customs Authorities & Masters of Vessels to own discretion, so does not have to travel 100 miles. Mentions impropriety of giving erroneous impressions to Government. Mr Gray generally resides in Brisbane & performs duty of Harbour Master in River, attending to Buoys & Beacons on Flats & Bar. Does not act as Pilot, so problems arise when 2 vessels appear off Moreton Island. Suggests appointment of Second Pilot & absorption of all fees into General Revenue & payment of fixed salary to each Pilot of about £200. Urgent as many vessels now arriving direct from England. I do not think His Excellency will attach any blame to me for not having sent Native Police to district sooner. I now have to send 5 <sup>th</sup> Section under command of Sergeant with strict instructions not to detach the troopers. Three Sections now without an experienced officer to guide & direct them. Fortunate that Native Corporals, especially man named in margin [Margin note: Edward Corporal 4 <sup>th</sup> Section] obey my instructions to the letter. I have been so much weakened with fever & ague, has been difficult to manage nine Sections of Native Police with so little assistance. I enclose note from one Sergeant (resigned) to show His Excellency how unfit such men are to be entrusted with a detachment. Consider Native Police Force ought now be organised as Frontier Police & that sending that Force to Clarence, McLeay & New England Country is a retrograde step. If such step is repeated the Native Police will be in Maitland in 1854. There is more fuss & nonsense made about Aborigines in long settled Districts than in newly occupied Country.		468-472

			Chief Commissioner Crown Lands Sydney	William Newsham Sydney	1853 06 11	<p>[Ref 53/6348]</p> <p>Notes re above Honorable Colonial Treasurer requested to report amount of Fine imposed [crossed out]</p> <p>At top: 53-2113. 13 June 1853 William Newsham requesting return of Fine paid on Danga Run. Letter refers previous letter of 2<sup>nd</sup> February applying for return of Rental paid on Danga Station Maranoa. Since then, Agent in Sydney, Mr Crush, paid another year's rent not being aware now occupied by Mr Fitzgerald. Error arose as result of not receiving reply to original letter. Seeks Return of 3 years Rental on Danga, £30.12.0 &amp; amount of fine paid, £15, being total of £45.12. &amp; Notes in margin Two separate matters in this communication – application for repayment of Rent paid on Run granted under accepted Tender &amp; now claimed as part of previously licensed Run; &amp; to fines imposed for non-payment of Rent on Runs within prescribed period. First matter still under investigation. Other submitted for His Excellency's comments. Facts as follows: Mr Newsham has been in correspondence on grazing capability of Country covered by his Runs which, on valuation, found to have been overestimated in original Tenders, on which ground he applied for reduction in Rent. His first letter was referred to District Commandant, of which he was informed. He wrote second letter enquiring what Rent charges were to be. Informed he must continue to pay Rent on each Run in his occupation otherwise forfeit interest therein (As Rent in each case could be minimum of £10, exclusive of premium, it seemed Mr Newsham's enquiries sufficiently answered). Facts do not justify application for remission of penalties upon omission (existing only in his perception) on part of this Department to answer his enquiries. This has been necessary to state re Mr Newsham's implied charge but as omission on his part to pay Rent by appointed time appears result of misunderstanding, remission of penalties may be recommended Yes Colonial Secretary [Ref 53/5471] &amp; Notes re above Address Mr Newsham Care of Mr G Yeomans West Maitland 53 14 16 William Newsham 3 April 53 respecting his claim for return of Rent &amp; Fees. Will report hereafter when time allows, on geological & auriferous character of those Districts, but found in Clarence District indications of existence of Gold in several localities & that, on "Rocky River" which rises in Dividing Range outward of Dundee & flows northwardly to junction with Clarence River, indications as to lead me to believe further research will develop a Gold Field of some extent. Abundance of water will impede those researches, but as some persons interested in the matter & who have had experience have commenced operations, the probable value of Field will be tested. Defer further remarks till can furnish Report in succession number VIII. 2. Now report that my exploration has been brought to a conclusion rather unsatisfactory to myself in consequence of misconduct of servant in charge of horses & cart (George Hogben). In crossing Bolivia Ranges he had assistance provided by which he passed it without accident, but immediately after assistance had been withdrawn he drove (without any enquiry) into a creek from which he could not be extricated without breaking shaft of cart & other injury. I had previously, in consequence of two previous occurrences on part of Benjamin Hughes, caused shaft to be repaired by fastening of iron plates along them. By kindness of Mr Irby at Bolivia temporary remedy supplied & on reaching Tenterfield I had shafts again strengthened by iron plates. No further mischance occurred till I reached the Gap, Mount Mitchell, on Main Range between The Downs &	A2.26	531-542 Note 536 is duplicate of 535

						<p>Moreton Bay. On descending small hill before we reached Summit of Range in neglect of my directions always to take off leaders &amp; lock the wheels, Hogben drove fast down stony descent, not on best track, but on abandoned one, &amp; driving over a mossy rock, turned cart over with violent crash, breaking iron plates on shaft in twain, tearing off covering of cart &amp; crushing some of my instruments expressly imported at considerable expense, for this expedition, &amp; doing other mischief to my own property &amp; that of Government. In consequence, I was detained with inadequate shelter, on top of pass during extremely inclement weather till I could obtain help of Bullock dray &amp; team to bring down baggage, the cart being only able to travel empty. Mr Kent of Fassifern who lives 21 miles from locality, kindly allowed his team to go up &amp; bring on the articles to Ipswich.</p> <p>3. I offered cart &amp; other equipment for sale, Mr Fairholme of Cochin Cochin [Coochin Coochin?] having taken horses. No bid made for cart at auction, but by private contract will be sold by Mr Brett of Ipswich in whose charge I left it. Mr Buckley of Brisbane offered £27.10.0 for it on part of Mr Berkmann [Beckmann] of Warwick &amp; I referred this offer to Mr Brett. I did not wish to let it go for less than £30. Horses brought £60 which gentlemen of districts tell me is fair price. By detaining there longer it is possible I might have obtained rather more by separate sales, but as charges for forage would have been between 20 and 30 shillings per diem (the last corn having cost 16 shillings per bushel &amp; for some wicks 12 shillings) I thought it better to close with Mr Fairholme's offer.</p> <p>4. I append schedule of articles with rates of disposal &amp; prices paid for each sold &amp; on my arrival in Sydney will pay amount received.</p> <p>5. Horses sold on 30<sup>th</sup> ult on which day I discharged George Hogben. I have written to Auditor General to apprise that officer that allowance for former &amp; pay of latter ceased from that day. I have brought on John Read, in charge of such baggage as remained &amp; to assist me in my duties, by the Steamer from Ipswich &amp; have taken passages for him &amp; myself in "The Jack" which is first vessel for Sydney &amp; which is to sail on 9<sup>th</sup> inst. Conduct of John Read has been, on whole, satisfactory but I have had very great trouble &amp; occasional annoyance &amp; hindrance from 2 persons who have successively acted as groom &amp; driver. Notwithstanding large tracts of country I have been enabled (partly by assistance of friends) to explore, I could have done better service to Government had I been fortunate as to have had with me persons on whom I could depend &amp; who would have lent me help in carrying out my researches, the value of which, whatever it may be, has depended on my own single efforts</p> <p>6. In consequence of conduct of George Hogben in doing damage for which I consider him responsible, told him should refer settlement of his last month's pay to decision of Government. Having paid at Bolivia &amp; Tenterfield £1.10.6 &amp; at Ipswich £5.0.0, former for repairs &amp; man who assisted &amp; latter for services of Bullock driver, I think this amount in fairness be deducted from his pay &amp; balance, if retained also, will be very inadequate recompense for destruction of instruments which cost me ten times the amount. Should his Excellence be induced to regard matter in another light I shall be obliged to introduce outlay &amp; losses I have suffered in contingent account but I cannot but see, that amount of a month's pay to the man is but a trifling payment for expenses incurred in consequence of this affair, besides those enumerated; damage to property not mentioned; loss of time; inconvenience of all sorts &amp; hindrance to objects I had in view in crossing this part of country which with other more favourable circumstance I would have further explored.</p>

If can be built for £170 as Captain Wickham believes, strongly advise he be authorized to carry it out at once before further rise in prices renders it impossible. Price of timber quoted so much below that in any other part of Colony, advance seems probably. £100 already voted & further £40, on Captain Wickham's suggestion, included in recent estimates. 				F L S Merewether	1853 01 20	Notes re above If no peculiarity which might be held to relieve Mr Evans from ordinary liability he must be held responsible for loss as he was not bound to receive cheques or orders in payment of penalty. It is however noted in Mr Evans letter that cheque & order were papers from person of [indecipherable – Duggan?] & applied in part payment of penalty & balance obtained from sale of Duggan's effects then in hands of Chief Constable. Probable that but for appliance of order & cheque payment would not have been in appearance made up & although Clerk might have refused to give credit for them & subjected Duggan to imprisonment for default of payment, he might fairly be relieved of responsibility for having taken other course which would involve no loss under most circumstances to public. Therefore suggest ascertain whether Duggan had other effects than those seized by Chief Constable or other means of paying fine. Mentions Captain playing Blindman's Bluff with females on poop deck. Captain, mates & stewards remarked on cruelty of keeping females below. Some females in hysterics. Informed Captain Charter Party states no intercourse whatever between Officers, Crew & female passengers. Letters of improper character also passed between them. On 10 April Second Mate (Lake) dressed in female drawers on poop, causing disturbance among single girls Signed: William Clegg  On 28 February Captain announced Water rations would be reduced to 2 Quarts , no more butter, only 38lbs soap (should have been 4cwt on board originally), & 112 pails milk. Hardly passed Cape of Good Hope when water failed. On 29 <sup>th</sup> March Captain proposed alterations to Scale of Distance which I declined  By the Captain I believe you have been generally kind to Immigrants. You reproached Carpenter for concealing girl in forecastle Signed: William Clegg  Captain states mouldiness of Bread complained of by some Immigrants on day of investigation caused by having been put on board in bags & not in casks. Do not think proper quantity of soap, milk & water put on board. Re my conduct re females, I merely skylarked with them for amusement without improper intention  Bess McLaughlin, Matron. 	53/02027	1853 03 03	Hon CS	George Barney Chief Commissioner Crown Lands Crown Lands Office Sydney	1853 03 02	Letter referring to conversation re arrangements in Southern Districts. Refers to removal of Headquarters of Lachlan District from Binalong to Gundagai. Advisable measure but necessary to point out no Public buildings at Gundagai to which Commissioner could remove & in present state of labour market, little probability of obtaining contract or indeed do any means offer of building the accommodation required. On removal of Head Quarters or even in present position, highly beneficial if Commissioner were charged with duties of Police Magistrate. Re Murrumbidgee District, no site yet selected for Head Quarters of Commissioners. Wagga Wagga seems better position than Tumut for conducting duties of District. However, question whether Tarcutta is not best, particularly in affording protection to Border Country & main road passing through latter, whereas the former, Wagga Wagga, is full thirty miles distant from Tarcutta, it is also more distant from Albury & from Gundagai, rendering communication with these points more tedious & difficult which I consider important in favour of Tarcutta. Whatever may be fixed upon as Head Quarters, desirable that Commissioner be charged with duties of Police Magistrate, this observation will apply to Commissioners of Albert & Lower Darling Districts, Head Quarters of former is at Moorna, latter at Euston. Already an authority for expenditure of £300 in erection of Quarters for Commissioner in Murrumbidgee District but same difficulty presents itself in getting work done as in Gundagai. [No 53/72] & Notes in margin Does not appear to be expedient to remove Head Quarters of Lachlan District at present, but Commissioner Beckham can be directed to sit occasionally on Gundagai Bench to assist local magistrates where it will not interfere with other duties Perhaps it will be as well to obtain reports of new Commissioner Mr Lockhart upon these points, but it seems to me that Wagga Wagga would be best locality This can be done & he can also be directed to attend Gundagai Bench	A2.26	802-805

Letter forwarding communication from Acting Health Officer Brisbane on subject of duties re Quarantine Station. 2 As unfortunate circumstance alluded to in case of "Emigrant" caused considerable difficulty & anxiety, desirable there be definite understanding as to what may be expected on part of Health Officer under similar circumstances – at same time unlikely any Medical Practitioner will accept office of Health Officer with small salary attached if expected to take charge of Quarantine Station in cases of emergency, as, owing to limited number of Medical gentlemen in Brisbane, each has fair share of practice [No 53/203] & Notes in margin		823  824-826

Called on Dr Swift to send any explanation he may have to offer & informed him he will be suspended from all duty as Government Officer 2 Also in accordance with your instructions in 3 <sup>rd</sup> paragraph of your letter, have appointed Mr Kearsay Cannan, Surgeon, as Coroner & Mr William Hobbs, Surgeon, as Health Officer to act in respective capacities. 3 Induced to appoint two gentlemen to separate offices of Coroner & Health Officer as duties have, at times, been found to interfere with each other. Suggest appointments should not be held by same person 4 Enclose letter from Dr Swift requesting me to forward to His Excellency his resignation of offices of Coroner & Health Officer which I commend – as in complaining of Dr Swift's conduct, no wish to injure his prospects as private practitioner & object will be fully gained by his being permitted to retire from Public Service [No 53/188] & Notes in margin	A2.26	827-830

Excess, namely 9/-, refunded by Contractor but not without verbal remonstrance on his part 3 Informed by Chief Constable that late Provincial Inspector of Police did not at all times order corn for Police horses from Contractor but purchased it wherever could be procured cheaper 4 When contract entered into for supply of certain article Contractor should reap benefit from changes in Market price which are favourable to contract as well as suffer loss when unfavourable 5 Believe contractor has taken correct view of circumstances, excepting as to articles not named in contract, but not replied to letter as possible Provincial Inspector acted in accordance with instructions issued to him [No 53.220] & Notes in margin Inspector General of Police BC Government Resident Brisbane informed [Ref 53/3921 police Sep 29]		852 – 855
			Government Resident	Robert Cribb North Brisbane	1853 08 01	ENCLOSURE At top: Enclosure to letter of Government Resident at Moreton Bay of 22 Sept 1853 – No 53.220. [Ref 53/3921 Police] Letter re account rendered to Mr Sneyd Chief Constable showing apparent error in price charged for Corn compared to contract price. As only a few shillings thought to save trouble by refunding, although error only in appearance, not in reality On further consideration, find a principle of some importance involved. Inspector Atkins declined taking corn as could get it cheaper than contract price. Should not all supplies for Colonial Service be obtained from Contractor – all articles he contracts for at contract price & those not named in contract, at market price. One party to contract should not be at liberty to obtain articles elsewhere. Corn question is good illustration – last year Inspector declined it as could get it cheaper. This year I have to supply at a loss from 3 or 4 shillings per Bushel & Notes in margin I do not think so in regard to articles not named in Contract		856 - 857
