Before pointing out propriety or necessity of Native Police in Country tendered for by Petitioners, think those Gentlemen in error when they say “...number of Sections of Police force stationed near Towns in Settled Districts where Blacks have been <u>civilised</u> for years” Know of no Town in Settled Districts of North where Blacks have been for years civilized & - only Towns in Northern Settled Districts with Section of Native Police are Brisbane in Moreton & Casino or Grafton in Clarence District. Neighbourhood of Brisbane towards Coast where many small proprietors occupied in agricultural pursuits, being exposed to marauding excursions of troublesome tribe of Natives called Ningi Ningi inhabiting numerous scrubs & swamps along seashore from Bribie Island to Wide Bay, requires protection as much as Country tendered for by Messrs Fitz & Connor. In Clarence District likewise Natives scarcely to be trusted 2 [Several pages of discussion re interactions between tribes of Aborigines & white settlers] Suggest if Government does not protect Fitz & Connor & others, likely organise own armed force. Preferable to station Section of Native Police under an active, courageous & intelligent Officer to possibly prevent effusion of much blood on both sides 3 Petitioners have sent in tenders for country but not yet in legal possession. Country is very distant. According to Mr Connor’s own reckoning about 250 miles from this place. No Commissioner could live there till there is some station to furnish meat. Mr Connor intends moving out there after shearing. I am now proceeding to Dawson & its tributaries where there are 120 Blacks awaiting my report. My intention to go up McKenzie in April when horses recruited. If Messrs Fitz & Connor were only persons going out to so great a distance they could scarcely claim protection. On enquiring from Mr Uhr why claim not forwarded informed portion of work claimed for, if performed, had been without sanction & appears Martin charged for repairs to building used by Clerk as kitchen – repeatedly explained to Martin by Mr Uhr & myself & if objectionable charges omitted, account would be paid, but he refuses. 2 In October 1853 Court House being insecure, without flooring, Bench or any convenience & there being balance of money allowed for erection of Court House & lock-up, Bench considered it necessary to have building repaired, floored & fitted up with Bench, dock, witness box etc & employed Martin to perform work which he completed January last. Since then, spoken several times about not being able to get his money & two months ago again stated he had made frequent applications & could get no satisfactory answer. His account never been forwarded. Made out account myself & sent to Auditor General telling Martin if in want of money I could advance him part of account which he declined, stating did not require money & as work performed for Government, wants payment from Government. Tom Tough having been taken up on these terms, request authority to detain her in services of Government until communications of Settlement with other parts of Colony relieve it from risk of suffering want of supplies or other evils attendant upon isolated position. More incumbent upon me to take this precaution as Government gone in advance of private enterprise & sold lands of Crown prior to occupation by squatters & therefore more than ordinarily responsible that all possible protection given to those who locate themselves under its auspices in portion of Country in which first settlers doubtless subject to risks & privations & Notes in margin It will only be a proper precaution to accede to this proposal Government Resident Port Curtis Civil Crown Solicitor. The William Miskin Steamer arrived here yesterday & from information I can obtain understand she is to continue making monthly trips to this Port 2 If this vessel is to be depended on, unnecessary to carry out recommendation alluded to above & suggest desirable & well calculated to advance progress of this place that Government enter into contract to secure services of this Steamer 3. Anticipate could be done at much lower rate than has been paid to Tom Tough by assuring to her monthly for first twelve months a certain amount of freight or passage or equivalent bonus 4 Money thus expended would soon repay itself to Land Fund by additional impetus given through these means to Sale of land & progress of Settlement [No 74/54] & Notes in margin This may be forwarded to Port Master with reference to my remark on 54/10461 with direction to ascertain whether a reasonable contract can be made with owners of "William Miskin" of Melbourne to visit Port Curtis at regular periods Port Master	A2.34	142 - 143

	55/09898	1855 09 19	Hon CS	M C O'Connell Government Resident Gladstone	1855 08 24	Letter re certain charges brought forward in Legislative Council Refers to charges brought against him by Mr Parkes, one of Members for City of Sydney, of imputation of fraud on disbursement of small portion of public funds passing through his hands. 3 No opinion on opening of Port. Public interest confirmed by extraordinary high prices paid for land 4 Port opened & land sold to extent of £11,000 to £12,000, incumbent on Government for preservation & care of small number of people landed on spot isolated from other occupation. Therefore recommended services of "Tom Tough" 5 Vessel not kept a day longer than necessary for safety of peoples entrusted to care. Took first opportunity offered by Steamer "William Miskin" as regular trader to Port Curtis to dispense with stationary vessel 6 Adopted this measure with some misgiving & results proven necessity of retaining vessel to be used as medium of communication with other parts of Colony in event of emergency. Dispatches of 25th July & 6th August will already have apprised of straits to which Settlement reduced from want of Flour & only relieved on arrival of Albion day before yesterday 7 Retention of "Tom Tough" cannot be looked upon as unnecessary or wasteful expenditure. If larger in proportion than value of Schooner, attributed to exorbitant rates demanded in Sydney 8 Mr Parkes dwelt on number of people for whom expenditure required – however few in number, entitled to protection. First settlement on Coast established without Military protection. Story re timber sent for to Wide Bay being left on wharf is false. Nearly all used up & converted into building which after living sixteen months under canvas not at all sorry to get into 9 Mr Parkes equally far from truth in assertions re Boat's crew – William Miskin Steamer never on shore within sight. Mentions picnics & fishing 10 Nobody here has any time for amusement & use of boat for fishing has not occurred at all or so seldom I do not recollect. 11 Assertion these men not employed in sounding portions of harbour not contained in Captain Stanley's elaborate & excellent Survey equally false. Under my directions, examined capabilities of Auckland Inlet & sent for same purpose about 100 miles up FitzRoy River 12 Re expenditure for supply of water, undertaken after much consideration & was absolute necessity. Quite prepared to defend myself from charge of having infringed on natural supply through consumption by horses & stock 13 Also prepared to show that bringing down any sheep or cattle for consumption for food done for public good. Considerable risk to own property in keeping price of meat within reasonable bounds & preserving people from illnesses likely from lengthy continuance of salt provisions 14 Allegation re driving away a person anxious to establish himself as butcher – defy Mr Parkes to produce slightest evidence 15 Replied categorically to all accusations of this unscrupulous person except that which is most serious as it is direct charge of fraud. Now relate history of entire transaction re purchase & appropriation of building referred to – 16 Arrived March 1854 to find Mr Palmer had erected substantial slab &	A2.34	148 - 162

Also gives impulse to progress of the place by proving its resources in Stone & Lime for building & for this purpose, as could spare men to assist him, had two small buildings put up by Stonemason - although cannot give this man continuous employment, no recourse but retaining Stonemason & getting out of him as much useful work as can 8 Such are expenses as seems unavoidably incurred, & , considering that in new Settlement no resources in local supply of labour, think reduced them to most economical scale possible 9 Service of drays, which includes supply of water to all persons on Government Establishment cannot be accomplished with less than three men & without such aids all operations would come to stand still 10 Re others - Stonemason & two Labourers - room for a difference of opinion - might be dispensed with if thought advisable, but without their assistance frequently compelled to take men from other works & progress would be impeded 11 If His Excellency agrees with views expressed, beg further £500 towards Establishment of Settlement of Port Curtis [No 133/55] & Notes in margin Resident at Port Curtis re expenses of Settlement & no of men kept by Government What are these expenses & what is sum taken for this? 	55/11611					more favoured Districts. Stations consequently much farther apart than usual & in many cases distance compels Commissioner when travelling to camp out. When reporting mostly have to camp out. Lately, Commissioner had to camp out five nights while reporting on one Run on FitzRoy. Aborigines are numerous, unsubdued & bold in which state likely to remain longer than other Districts as scrubs & rivers with plenty of water afford food in abundance. Squatters with large quantities of stock who are much more able to maintain position in new country slow in coming out so much time will elapse before District is possessed before Aborigines accustomed to White man living in midst of them, & ceased to steal sheep & murder Shepherds of intruders. As Commissioner exposed to danger of attack by Aborigines would be as well that Troopers would be best qualified to expel such an attack & confide in. Retreat is unpleasant & has bad effect on savages & defeat is death. Following reasons show why Aborigines preferable to White man for this purpose. 1 Great difficulty Commissioner meets with in securing good & trustworthy men & such as know their duty from the Whites 2 Those who served in Army most eligible but those of that class with good characters engaged in Police in & about Sydney whilst those who wander as far as Northern Districts generally been dismissed for drunkenness or too insubordinate 3 Labouring men in new districts also generally of worst description. Dislike being sworn in as Troopers or Constables, look loutish in uniform & do not understand duty 4 When opposed to Natives & when they hear yells of savages they generally panic, nor are they so clever as Native Troopers in detecting signs that Aborigines are about by observing tracks & other signs & sometimes in night give false alarm 5 White men useless in tracking & finding horses of a morning when camping out or in procuring food should rations run short 6 Two Native Troopers more able to defend themselves & take care of horses when sent to carry message or letter in case of attack than two White men 7 Commissioner has now in his pay two black boys clothed & mounted to accompany him on journey & to find horses in morning 8 Sum of money requisite for wages & equipment of two White troopers would furnish 4 native Troopers & leave surplus as in Estimate Table Estimated Expense to Department of Commissioner Crown Lands by substitution of four Native Aboriginal Troopers of Native Police in lieu of two White Troopers at present employed in service of Commissioner for Leichhardt Left side <table><tr><td>Expense of 4 Native Troopers for first year</td><td>£ s d</td></tr><tr><td>4 Native Troopers pay & allowance of Police at 2/1 per diem</td><td>152 1 8</td></tr><tr><td>2 extra horses at £25 each</td><td>50 0 0</td></tr></table>	Expense of 4 Native Troopers for first year	£ s d	4 Native Troopers pay & allowance of Police at 2/1 per diem	152 1 8	2 extra horses at £25 each	50 0 0		264

	55/11958	1855 11 29	Hon CS	M C O'Connell Government Resident Port Curtis Sydney	1855 11 29	Letter re queries in letter of 27th September, No 55/69. There are 12 persons settled upon purchased lands in Town of Gladstone, of which five are purchasers who have obtained allotments since land sales held in Town of Gladstone itself. 2 Twelve houses including three Government buildings either finished or in course of erection, but as population now amounts to 60 souls independently of those in employment of Government, no doubt building will proceed much more rapidly in ensuing year 3 Unable to give quantity of Suburban land sold as sales taken place in Sydney & no Returns made to me of results 4 No suburban land as yet brought within cultivation & only one suburban allotment built on – Native Police Barracks are in Suburbs 5 No land under lease or licence to squatters in immediate neighbourhood of Gladstone. Within 20 miles of Township, as pointed out in letters of 7th September 1854 & 23rd April 1855, [Margin Note: 54/9456 55/5379 Traced onto 55/10070] no preparation made by Survey Department for legal occupation of soil other than by purchase of small patches of land of a few acres - mode of occupancy which it seems can never in this country be primary means of reclaiming wilderness; pastoral occupation in some shape must always precede & prepare for subdivision of land into smaller holdings & I am at a loss to understand policy which seems to have guided operations of Surveyor Generals Department at Port Curtis. From an extract you forwarded me from one of late Surveyor General's letters I am led to believe that Sir Thomas Mitchell was apprehensive claims might now arise under pastoral occupation injurious to future of district surrounding Gladstone, but I think regulations governing issue of yearly sales sufficiently protect public interests - & to refrain from occupation which is beneficial at present merely that land may be open to occupation of succeeding generations may be questioned – for, if impolitic in this generation to occupy, same rule must apply with equal force to each successive generation – wherefore land always kept waiting for most beneficial occupant whose advent nothing short of revelation could determine. I hold that to occupy as speedily & as beneficially as interests of present time will allow is true policy of country & demand of public is true criterion of what is most beneficial. No doubt if land within 20 mile belt now reserved around Gladstone were surveyed for purpose, every square mile would find leasehold occupation; & good deal purchased by pastoral occupants. Beyond distance of 20 miles, Counties of Clinton, Deas Tomson & Livingstone are open to occupation by Tender on yearly leases & Counties of Pelham, Raglan, Palmerston, Liebig & Flinders are intermediate districts & open to occupancy under leases of 8 years. Nearly all this country has been tendered for & after present shearing season a great portion of it will be occupied with Stock Two Squatters establishments, namely those of Mr Charles Archer & Messrs Elliot had been moved out to FitzRoy before I left Port Curtis 6 Land in immediate neighbourhood of Gladstone is far above average character of land on sea coast – to be used for pasture it is all very good & there are considerable portions fit for garden cultivation –	A2.34	296 – 303

	55/12278		Lieutenant Murray Commanding Division Native Police Gladstone	W C Mayne Inspector General of Police Office of Inspector General of Police, Sydney	1855 12 05	case of Mr Hay & constable generally reported to Attorney General Letter re receipt from Lieutenant Marshall of report of 2nd Lieutenant Walker re attack on Native Police Camp at Rannes, together with affidavits from C L Hay Esquire, Messrs D Kelly & William Buttie & statements of wounded Troopers. Call attention to errors & oversights to which results may be attributed. 2 First - allowing Aborigines to congregate in numbers reported in immediate vicinity of Camp & Station. I recognize propriety & humanity of endeavouring to civilize Aborigines by admitting them individually, in small numbers, about Stations, but experience taught me when congregated in large numbers, from necessity or caprice, as regards food, & from confidence & audacity which great numerical superiority begets, Blacks plan & commit depredations on property & acts of violence on settlers & servants. Assemblages near camps or Stations should be prevented 3 From Deposition of Mr Kelly, I learn that, though large number of Blacks who collected at Rannes for some time previous to 23rd September, had been treated with great kindness, receiving large quantity of food, they had notwithstanding stolen 70 to 80 sheep. I have to observe that, allowing Aborigines after this was known to remain would inevitably produce in their minds feeling reverse of respect for those who submitted to such attacks & for Police who should have checked such acts & would encourage them to further aggression & violence. On discovery of first depredation, Aborigines should have been driven from Station & compelled to disperse; temporising or slightest want of firmness & decision (quite compatible with humanity & tenderness) grave errors in dealings with Savages 4 Being in camp at Rannes &, therefore, more liable to surprise than if in close Barack, there was greater necessity for vigilance on part of Police, but, appears, though seven Troopers at Camp on night of attack, there was such absence of caution & vigilance, that some Blacks were enabled to steal into it & remove carbines & pistols & were enabled to rush upon Troopers & spear them as they left; this, I'm compelled to observe, displays want of caution & vigilance which calls for marked animadversion & reprehension while allowing Blacks under circumstances to camp on same side of creek as Police (brought to my notice by Mr Marshall) exhibits want of prudence & discretion which I must censure 5 You will communicate this to 2nd Lieutenant Walker & impress on him necessity of exercising greater caution, vigilance, prudence & discretion than appears to have done in this instance. 6 Feeling of animosity on part of Aborigines in Districts where Native Police Corps employed engendered by Troopers carrying on intercourse with Gins, & consequently reason to suppose attack at Rannes resulted from this feeling. Call for your full report on this subject which you will forward having communicated with 2nd Lieutenant Walker & received his report to be transmitted with your own		351 - 356

	55/12538		Commissioner Crown Lands Wide Bay Burnett	Arthur Halloran Chief Commissioner Crown Lands Commissioners Office Tinana	1855 12 13	At top: 55/5383 – 17th December 1855. Commissioner of Crown Lands for District of Wide Bay & Burnett to Chief Commissioner Crown Lands re murders committed by Aborigines. Transmitted by Chief Commissioner Letter re murder committed by Aborigines. With deep regret compelled to bring under notice continued aggressions of Aborigines & report for your information that on 5th Instant individuals named in margin were brutally murdered by Blacks on Tinana Creek 4miles above any residence [Margin Note: Mr George Furber. Mr Joseph Thomas Wilmshurst]. In letter to you of 3rd October last No 55/120, expressed opinion that unless protection applied for afforded, bloodshed would take place, but hardly expected my anticipation so soon realised. 2 Since perpetration of murders Blacks have been in numbers in Scrubs around Township evidently exalting in what they have done & such effect upon white population that I am satisfied unless protection be afforded by party of Native Police being stationed in Maryborough few of labouring class will be induced to remain. At present buildings in Town in course of erection at stand-still from want of Timber & Sawyers afraid to continue work in Scrub, their lives being in constant danger & check put to advancement of Maryborough which for last 12 months steadily rising 3 To show further effect constant outrages of blacks has on labouring class, I state Surveyors unable to get men to carry on his surveys within four miles of Town & since murders now repeated, two of my own Orderlies leaving for purpose of going to Sydney to get out of District 4 In addition to murders, within last few days, two men speared & one knocked down with large stone & severely injured. Since murders, a Sawyer near Town beaten with Nulla Nullas & left for dead & his hut robbed. Mr Uhr's house & garden & my own garden also robbed & dray belonging to Messrs Herbert, whilst camped in Town on night of 8 last, plundered of eight bags of Sugar & two bags of flour 5 Large party of inhabitants under Mr Assistant Surveyor Buchanan turned out & assisted Police in endeavours to capture murderers. Visited Fraser's Island & travelled considerable distance in pursuit & recovered quantity of flour & sugar belonging to Messrs Herbert but regret unsuccessful in main object of expedition 6 From nature of Country around Maryborough almost useless for Police to attempt to follow Blacks. Requires people of own class who can make their way through dense scrubs, mud creeks & places where white man encumbered with clothing cannot travel. In addition, not now practicable to obtain trackers, last black so employed about four weeks ago having since been murdered & I beg to express opinion not any part of Colony where Native Police are more required than Maryborough 7 Re report of Inspector General Police forwarded in your letter of 9 ultimo No 55/2674 not aware to what that officer alludes in speaking of existing state of things in parts of District of Wide Bay & Burnett to which services of Native Police properly applicable – interior of District where Police now are (Traylan I believe) about 130 miles from Maryborough is perfectly quiet & free from aggression on part of Blacks. Do not think visit of Police from McLeay will be attended with beneficial results. Distance from McLeay upwards of 500 miles	A2.34	398 - 406

In reply appears F D Vignoles JP would have gained thanks of community by acting Magisterially in endeavouring to check such transactions alluded to which is clearly duty of all Magistrates to do. Rather than after lapse of very considerable period to allude to irregularities which I am happy to say have long since ceased to have any existence & which I have been instrumental in checking by withdrawing my custom from house in which taken place from finding at time no privacy could be obtained at Country Inns generally & which has been source of complaint by many visitors. Certainly strange that Mr Vignoles who as most distant resident (I think) of Magistrates composing this Bench should consider himself called upon to make charge of this nature & which he is not warranted in doing & cannot but question purity of motives. Happy to say during my career I never was considered a Gambler & during time in Military Service (8 years) received approval of Commanding Officers as also that of Lord Nugent, then Lord High Commissioner of Ionian Islands who did me honour of extending his hand to me on board Jupiter troop ship, on my departure from Corfu. Have previously held Commission of Peace during Administration of Government by Sir Richard Bourke & was some years ago asked by majority of Magistrates of District to allow my name to be put for nomination for Commission which I declined. 				Michael Fitzpatrick Clerk of Council Executive Council Office Sydney		Proceedings of Executive Council on 16th October 1854 with respect to charges preferred against Mr Joshua J Whitting JP Minute No. 54/40 confirmed 23rd October 1854 His Excellency Governor General lays before Council letter from Mr F D Vignoles tending his resignation of office of Justice of Peace in consequence of recent appointment to Commission of Peace of Mr Joshua J Whitting whom Mr Vignoles does not consider proper person for appointment by reason, as he alleges, of many well known disreputable gambling transactions taken place between Mr Whitting & publican resident in Drayton. His Excellency also lays before Council letter from Mr Whitting in reply to communication by His Excellency enclosing copy of Mr Vignoles letter 2 Mr Whitting does not, except by inference, deny accusations but before taking final step in matter, Council advise that Crown Commissioner of District (Dr Simpson) be requested to ascertain confidentially & report what may be opinion of Magistrates forming Drayton & Warwick Benches as to degree of culpability attaching to particular transactions referred to by Mr Vignoles [No 54/270 ?]	A2.34	426 - 429

Having waited upwards of five weeks in expectation of Mr Whitting calling on me to prove my charge & having received no communication from him can no longer remain silent under imputation of having made at close of my letter a remark "extremely uncalled for & offensive to His Excellency as Head of this Government." In justification of remark "I deeply regretted that Mr Whitting's appointment was only another insistence of reckless manner in which appointments of late had been made to Commission of Peace in Northern Districts" I beg to remind His Excellency that some months prior to Mr Whitting's appointment & during His Excellency's recent tour to Moreton Bay, Address was received by him at Ipswich in which following remarks were made "undersigned beg to point out number of persons placed on Commission Of Peace in Northern Districts neither qualified by education nor social position to give dignity to Bench nor satisfaction to Inhabitants in general." No hesitation in expressing belief that every respectable Inhabitant in these Districts would vouch for its correctness. Recent Debates in Council on second reading of "Unpaid Justices of Peace Bill " I also consider justly bear me out in every assertion as to manner in which appointments have been made to Commission of Peace not only in Northern Districts but throughout Colony for during debate Mr Plunkett, Her Majesty's Attorney General & Member of Executive Council, reported to have said re appointments that "he would sooner cut his right hand off than to have signed their recommendation" This remark from Member of His Excellency's Government is alone I think justification of strong excess in which I felt compelled to express my disquiet at appointments to Magistracy in these Districts. Only remains to say that it was at one time my intention to have stated in this letter the particulars of my charge against Mr Whitting but having resigned my Commission as Justice of Peace & having no personal feeling against him, having been solely actuated by what I considered my public Duty, I refrain from saying more than that I shall be prepared to prove my accusation when called to do so by Government & Notes in margin Acknowledge then let Writ of Supersedeas be prepared Captain Vignoles

As charge no doubt relates to transactions between Mr Whitting & Mr Horton, publican at Drayton, formerly Prisoner of Crown, about end of September 1852, my duty to bring under His Excellency's notice – reported in these Districts early October 1852 that Mr Whitting lost considerable sum of money in gambling with Mr Horton & had repudiated debt. In confirmation appeared in Moreton Bay Courier of 30th October following advertisement: Notice – I hereby caution Public not to receive discount or in any way negotiate two several Promissory Notes – one dated 1st October 1852 drawn in favour of Mr William Horton on order for sum of £100 payable three months after date Bank of NSW, Sydney - other dated 1st October 1852 drawn in favour William Horton for £155 payable six months after date Bank of NSW, Sydney – said notes obtained without consideration. Since been informed compromise effected – Mr Horton receiving Sheep instead of money. 3 At time, these transactions were of public notoriety & thought to be of such disreputable character both by Magistrates & Public that Mr Whitting's society generally avoided – indeed generally supposed he must fly District – no such thing – short retirement from eye of Public & lapse of few months to erase all recollection of past & restore him to society of former acquaintance – amongst whom several are Magistrates of Drayton & Warwick Benches who seem now disinclined to express strong opinion of subject so long past & only known to them by public report & newspaper advertisements or content themselves with simple expression of feeling that if called upon rather not act on Bench with Mr Whitting as colleague As Commissioner Rolleston residing at time at Cambooya & must be perfectly cognisant not only of reports in question but of opinion of Magistrates, no doubt being now in Sydney, he will be able to give any further information His	A2.34	434 - 436

Crew & passengers succeeded in reaching Huon's Island 4 After fortnight in this situation Mr Tough (second mate) , cook & Mr Denty, a surveyor, left island in small boat, 13 feet, in hope of being able to reach coast of New Holland which they accomplished on 8 th instant, after being at sea fourteen days 5 From Tough's statement, appears made land southward of Wide Bay & landed for purpose of getting water – much exhausted & limbs so cramped from sitting in boat scarcely able to stand – In this deplorable state attacked by party of natives who hauled boat on beach & plundered her & stripped unfortunate men naked & beat them cruelly. Appear to have lain some time in state of insensibility & on awaking from stupor found natives had left & all badly wounded Resolved to proceed Southward &, keeping to sea coast, travelled for three days without food – when met some Natives who gave them shellfish 7 Following day met Native, "Moisey" who supplied fish & kept men beside fire all night & following morning offered to take them to Moreton Bay – Mr Denty & Cook unable to proceed further, Tough proceeded with "Moisey" to obtain assistance. On second day met party of Blacks to whom Moisey gave over charge of Tough & they conducted him to Brisbane, Moisey having returned to Mr Denty & Cook 8 From account by Blacks, these two unfortunate individuals were left about 60 miles south of Brisbane River. Applied to Mr Duncan, late Collector of Customs, who kindly sent Custom's boat to Bribie's Island northern most part of Bay & about 30 miles from place where Mr Denty & Cook were left & can be reached by party walking near Sea Coast in event of boat not being able to proceed further than Bribie's Island – Two of Natives who brought Tough to Brisbane accompany this party & another party has proceeded by land from Brisbane 9 Sent personal articles as presents to Natives to induce them to give assistance & supplied those who arrived with Tough with Blankets &	A2.34	456 - 466

				CAF	1854 10 02~ 1854 10 02~	provisions 10 Informed by Tough that when he left Huon's Island, people were well supplied with Turtle & Sea Fowl & some rice from wreck – but water precarious as dependent entirely on rain water & what they were enabled to distil with vessel's cooking apparatus, may be sufficient until vessel can be sent to assistance, but Huon's Island is not less than 150 miles from New Caledonia & in position not likely approached by whalers or other vessels, no means of escape from present unhappy position unless vessel is sent to relieve them 11 Tough will proceed to Sydney in "Boomerang" – able to give any further information re circumstances & may be useful in event of His Excellency sending vessel to rescue of shipmates 12 Number of persons on board "Ningpo" when wrecked as follows: Mr Billings Master Mr Maynard 1st Mate Mr Tough 2nd Mate Carpenter Cook Steward 4 European sailors 9 Chinese sailors Mr Denty Passenger 1 male Chinese Passenger 1 female Chinese Passenger 13 Cannot conclude without expressing surprise that "Ningpo" sailed from Hong Kong on so long a voyage with only one boat & that only 13 feet in length [No 54.179] PS September 27th In consequence of delay of "Boomerang" inform you that Customs Boat returned last night. Remains of one of unfortunate men found about 30 miles north of Moreton Bay in very mutilated state no doubt caused by Native dogs, as traces of those animals numerous. Other person, according to account of Natives, gone to Wide Bay about 35 miles distant. Tough of opinion that remains found are of Cook in consequence of having been so severely wounded on head by Natives on first day of landing & head of body described as much beaten. JW & Notes in margin Let copy of this be forwarded as soon as possible to Senior Naval Officer with request that he will inform Government whether he can take any steps for relief of wounded person left on Island. Proceedings of Captain Wickham should be approved & may be desirable to communicate to Government of Hong Kong statement in concluding paragraph Senior Naval Officer

That evidence should be. First, testimony of survivors of 'Vision' to establish general case against aborigines of Island - Secondly, discovery of remains of Mr Spurling, with such evidence	A2.34	492 - 496
